

# MY ENERGY CONSUMPTION

Let's see how much energy we are using.

Write down your energy meter readings for both Electricity and Gas. You will be invited to take another meter reading in three weeks' time and bring those readings to church.

	Electricity	Gas
(1) Sunday 7 <sup>th</sup> November		
(2) Sunday 28 <sup>th</sup> November		
(2) – (1)		

I will present my worked example on the 28<sup>th</sup> November for you to calculate after Church on the 28<sup>th</sup> November.

If you are willing to share your baseline data, please email me your results at: [justin@pochpac.co.uk](mailto:justin@pochpac.co.uk)

Justin Boorman  
Energy Champion
